PROFESSIONAL SUMMARY

Frontend Developer with internship experience building responsive web interfaces using HTML5, CSS3, JavaScript (ES6+), and React.js, with a keen interest in fullstack development. Hands-on experience with React Hooks, component architecture, REST API consumption, and JSON-based data management. Skilled in Figma-to-code implementation, SCSS, and cross-browser compatibility. Proficient with Git, Vite, and Agile workflows.

TECHNICAL SKILLS

Core Skills	HTML5, CSS3 (Flexbox, Grid), JavaScript (ES6+), DOM APIs, Async/Await, JSON
Frontend	React.js (Hooks, Component Architecture), Tailwind CSS, Bootstrap, SCSS
Backend/DB	JSON-based CRUD, localStorage, REST API (Consumption)
Tools	Vite, Git, GitHub, VS Code, Figma
Practices	Cross-Browser Compatibility, Accessibility (WCAG), Agile
Other	Python (Fundamentals), Problem Solving, Logical Thinking

EXPERIENCE

Frontend Developer Intern Noddesk, Coimbatore, India	July 2025 – Present
--	---------------------

- Converted Figma mockups into responsive, production-ready interfaces using HTML5, CSS3, JavaScript (ES6+), and Tailwind CSS across multiple client projects.
- Built modular, reusable React.js components and managed frontend data flow using structured JSON and localStorage-based CRUD operations.
- Collaborated via Git/GitHub in Agile workflows; resolved UI bugs and applied performance optimization techniques.

PROJECTS

EduCore – School Management System

- Built a responsive web app with role-based dashboards (admin, teacher, student) using JavaScript (ES6+), HTML5, CSS3, and Tailwind CSS; implemented JSON-based manual CRUD operations across modules.
- Applied component-based architecture and SCSS for modular UI components, ensuring cross-browser compatibility and accessibility.

Recipe Finder – React Recipe Search App

- Built a recipe search app using React.js (Hooks), Vite, and Tailwind CSS, integrating TheMealDB REST API with custom hooks, category filtering, and dynamic detail views.
- Demonstrated real-world React patterns: component reusability, async data fetching, and conditional rendering.

QuizMaster – Cookie-First Single Page Application

- Built a client-side SPA using JavaScript (ES6+), HTML5, and CSS3; engineered a custom Cookie-based storage engine using DOM APIs and async patterns as a LocalStorage alternative.

EDUCATION

B.Tech in Information Technology KTU University (Government Engineering College Palakkad)	2024 CGPA: 7.01
---	--------------------

LANGUAGES

- English – Fluent
- Malayalam – Native
- Hindi – Conversational
